Care Quality Commission (CQC) Inspection Outcomes – Quarter 4 2018-19

The CQC is the national inspectorate for registered health and adult care services. Inspection reports are regularly produced and these are published on a weekly basis.

The CQC assesses and rates services as being 'Outstanding', 'Good', 'Requires Improvement', or 'Inadequate'. Where providers are found to be in need of improvement or inadequate, the CQC make recommendations for improvement and / or enforcement action. Specific actions taken in each case can be found in the relevant inspection report.

Where inspections are relevant to the Borough, a summary of the outcome is circulated to all Members each week. An update from Adult Services is included which summarises the position in relation to service provision and any actions taken at that time.

On 14 September 2015, it was agreed that the Committee would receive a quarterly roundup of recent reports. These would be aligned with the Six-monthly Adult Performance Reports where possible.

Recent Reports

This update includes inspection reports published between January to March 2019 inclusive.

During this quarter, sixteen reports were published. Please note: there is a time lag between dates of the inspection and the publication of the report. In addition, where concerns are identified by CQC, re-inspections may take place soon after the initial report is published. When the outcomes are made available within the same quarter, the result of the most recent report is included in this update.

The main outcomes from the reports are as follows:

- nine Adult Care services were reported on (two were rated Outstanding, five were rated Good, two were rated Requires Improvement);
- four report was released on Primary Medical Care (all standards were met/no action required);
- three reports were published on Hospitals/Other Health Care (one was rated Outstanding, two were rated Good).

A summary of each report and actions taken (<u>correct at the time the CQC inspection report</u> <u>was published</u>) is outlined below. Links to the full version of the reports, and previous ratings where applicable, are also included.
