PROPOSED
R/E SPEED BUMPS
MIDDLETON AVE
THORNABY

Thornaby

TS17

OHE

Dear Sir,

I am writing about the proposed speed bumps planned for Middleton Avenue.

My husband & I objected to them 3 yrs ago and our views remains the same.

The letter that we received stated that over 400 households were asked for their views and less
" 70% objected.

As there are ² only 33 houses directly affected on Middleton Ave, where the speed bumps are designated and all of the objectors are resident of Middleton Ave that makes the majority of affected households against the scheme.

Yours
Mr. & Mrs. Miller

4 Middleton Ave
HORNABY - ONTARIO

Dear Mark. R5175/T/5/3
12.7.7

Once again there are only 33 houses
in Middleton Ave so why 288 homes consulted?

You say 20 were opposed, and approx 52% of
opposing cases from Middleton Ave, somebody's maths
need to be checked it could only be either 50 or 55%.
52% is impossible. What the results therefore show
that $\frac{1}{3}$ of Middleton Ave were against the scheme
and nothing to people for Middleton Ave at least
seven did not reply, therefore it means no more
than half the residents want the scheme.

B. L.

If does come in I do not want a re-order
with 50mtr either side of my house if one
is put there and any accident happens because
of it I will hold you and your department
responsible.

a copy of this letter will be sent to my solicitor
