

Hi

As a resident of Holystone Drive I have recently viewed the proposal under section 1,2 & 4 of the road traffic regulation act to extend the area of prohibited parking within Holystone Drive and Henshaw Drive Ingleby Barwick and would like to voice my objection please. I understand the current issue with cars parking along the length of Holystone and Henshaw Drive during the school drop off and collection times, however creating an exclusion zone within the first 41m-67m will just push cars further into Holystone and Henshaw Drive which ultimately creates no benefit for its residents.

Many Thanks

Lee Spence

Dear Sir

I write regarding the "No Waiting Restriction" you propose to impose in Rochester Court, Ingleby Barwick during the hours of 8.00am to 9.30am and 2.30pm to 4pm.

I live in Rochester Court and your proposal would cause me great hardship. I work for a roadside assistance company comparable to the AA, doing so from home, where I must be "on call". Depending on the calls I receive, this could easily mean that my work vehicle would be parked outside my house during the hours you intend to impose the no waiting restriction. My driveway is not wide enough to accommodate my partner's car, my work vehicle and my next door neighbour's car, so I have to park my work vehicle outside my house. My work vehicle contains very valuable tools and equipment and it is not safe to park this vehicle out of sight of my home, nor practical to remove all of my tools and equipment every time I leave the vehicle.

At the moment, white lines are painted on the road in Rochester Court, apart from a small area in front of my house. This arrangement allows me legally to park my work vehicle outside of my house at all times. This arrangement was agreed by yourselves when you painted the white lines and it has worked perfectly well. I have lived in Rochester Court for nearly fifteen years, always during that time parking my work vehicle on the road outside of my house. I have received no complaints from my neighbours. I believe I have a legitimate expectation that I can carry on doing so.

I understand the need for your proposed restriction, for trying to get in or out of Rochester Court during the times the restriction is to be imposed unarguably can be very difficult. But I feel that if this proposal goes ahead without allowing me legally to park outside my house, the hardship this will cause me will, in effect, punish me for the irresponsible actions of those who park their cars without any thought for the residents of Rochester Court.

I therefore believe it would be perfectly reasonable to allow me to continue to park on the road outside of my house. This could, I suggest, easily be done by either giving me a permit, or by not having the restriction, signalled as I would expect by a yellow line imposed outside of my house, as you have been good enough to do with the present white line.

I hope that a solution can be found for my concerns, and if so I would not object to your proposal. If no solution can be found at this time, I would be obliged strongly to object to the proposal.

Yours faithfully

Michael Campbell

With suggestions put forward re parking issue Holystone Drive I would like to know why the yellow single stops before my house. I live at no 5 Holystone Drive I do not have any objections but think the yellow parking lines should continue in to the cul de sac where my house is because this is going to cause problems because obviously the parents will park in our cul de sac and there is no pavements so I am going to have children and parents walking all over the garden. We as residents who pay council tax and look after our properties do not want litter or chewing gum on the road which is like the first part of Holystone. My side garden is always littered with sweet packets dropped by the children and using my side garden as a playing field.

Also this will cause problems for myself and neighbours been able to exit our properties.

Mrs Lesley Graham
5 Holystone Drive
Ingleby Barwick

I am concerned that the proposed parking restrictions around Holystone Drive do not go far enough and will create problems especially in the cul de sac comprising of the houses 5 to 27 Holystone Drive. As a resident I have already experienced the dangerous parking, litter and rudeness of the drivers visiting the schools. This apart from the health and safety issues in this part of Holystone Drive and some surrounding roads which have no pavements which makes them unsafe for children on the school run.

E. Dawson

would like to request that the yellow lines to prohibit traffic from parking around St Therese of Liseaux , be extended into our central close(I live at 27 Holystone Drive) to prevent unauthorised parking. We already have issues getting out of our road when people arrive to drop off and pick up their children, and we experience dropping of litter and chewing gum already. We pay our council tax and therefore our rights as homeowners should be respected and protected.

Kind regards
Kathryn Richards
