Subject: Objection to Traffic Order - THE BOROUGH OF STOCKTON-ON-TEES BUTTS LANE AND GRISEDALE CRESCENT, EGGLESCLIFFE TRAFFIC REGULATION ORDER 2018

Objection to Traffic Order - THE BOROUGH OF STOCKTON-ON-TEES BUTTS LANE AND GRISEDALE CRESCENT, EGGLESCLIFFE TRAFFIC REGULATION ORDER 2018

To whom it may concern,

With reference to the above order we are concerned that it would lead to traffic waiting, loading or parking being displaced from the areas covered by the proposed no waiting no loading any time restrictions to the areas in front of 9, 11, 15 and opposite 8, 10 and 12 Butts Lane. This would generate an increase in levels of congestion, pollution and litter in the area. At Egglecliffe Primary School drop off or pick up times it can feel unsafe as a vehicle user or pedestrian due to the high number of large modern vehicles in a confined space. Vehicles are waiting, loading or parking on Butts Lane, some for extended periods, and we think it is highly likely and unfair that this, and the detrimental effects described above will be displaced to an area in front of residential property where there is an expectation of privacy when, if the restrictions are extended, such interference and detrimental effects could be avoided. The areas in front of a school, graveyard, church and village hall are public spaces where expectation and interference in privacy, and other detrimental effects, are reduced. We propose that the no waiting no loading any time restrictions go further to include the areas in front of 9, 11, 15 and 8, 10 and 12 Butts Lane; or seek to compromise by suggesting no waiting no loading during specified times only, in those areas, such as outside of school/working times Monday-Friday.

We do not seek to be obstructive, rather act in the interests of public safety, privacy and preservation of the character and standards of the Egglecliffe conservation area for all (not just some) who are resident there

Please confirm receipt.

Respectfully,

Mauro Carneiro and Tom Swailes  
10, Butts Lane, Egglecliffe, TS169BT
