

Stockton Skate Park – Outline Programme

1. Due to the size and nature of the skatepark equipment, it is proposed that the skatepark facility currently provided at Stockton Sports Centre be relocated to Arlington Park. This will be a static site provision in addition to the mobile facilities being delivered across the Borough.
2. There is an ongoing commitment to provide a skatepark facility in Tilery and it is intended to utilise the land on which the sports centre is currently sited to deliver programmed events using the Sunramp mobile equipment.
3. Details in relation to skateboarding activities are provided below, based on current activities (attached) together with an outline programme.

VENUE	PROGRAMME	COMMENTS
NRF funded skatepark		
Stockton Sports Centre – (To be relocated to Arlington Park)	Saturday morning programme of 3 hour session for 50 weeks at £350 per session	Static equipment
Mobile Equipment		
Mobile Venues across the Borough (including use of site of former sports hall at Tilery)	A minimum of 3 x 3 hour sessions per week for 26 weeks (weather permitting)	Incorporating SUNRAMP technology
High Street Stockton	Christmas in Stockton	Incorporating SUNRAMP technology

3. The siting of the skatepark at outreach venues has been subject to a borough-wide survey to identify suitable sites and these have been fully risk assessed. Sites need to have a flat, suitable surface, be large enough to host the park, be accessible and have toilet facilities etc.
