ITEM/ISSUE	COMMENTS/ DECISION/ ACTIONS	CONTACT
WELCOME, INTRODUCTIONS AND APOLOGIES The Chair welcomed everyone to the meeting. Apologies were noted.	Noted	Sarah Upex, Area Partnership Board Coordinator, SBC
2. DECLARATIONS OF INTEREST (DOI) Members were advised to declare DOI at the start of the meeting before any items are discussed.	Noted	Sarah Upex, Area Partnership Board Coordinator, SBC
3. MINUTES OF THE STOCKTON RENAISSANCE PARTNERSHIP BOARD MEETINGS HELD ON 6 TH JULY 2010 Minutes agreed as a true and accurate record.	Noted	Sarah Upex, Area Partnership Board Coordinator, SBC
 4. THE CHANGING PUBLIC SECTOR LANDSCAPE Neil presented to the Board the key headlines and impact for the Borough from the Comprehensive Spending Review and an update on organisational changes across the public sector. The Board were informed of national policy announcements: Unprecedented scale and pace of change It was seen that in the first 200+ days of the Coalition, the following has taken place: CAA, RDAs, RSSs, PCTs, GOs, Audit Commission, Place Survey, ID Cards, housing targets and free swimming have been cut A lot of things have come in: Free Schools and Academies Bill, LEPs, Localism and the 'Big Society' The impact in the North East was discussed: GONE and One North East have been axed 'Liberating the NHS' – scrapping of PCTs Regional Tourism 	Noted	Neil Schneider, Chief Executive, SBC

- Uncertain future for: Independent Safeguarding Authority, Student Loans Company and the Football Licensing Authority, to name a few
- Local Enterprise Partnership the Tees Valley was one of the first in the 24 to be successful across the country.

The Board discussed the impact in Stockton:

- Funding is uncertain for North Shore and Thornaby Academies
- Free school application for Ingleby Barwick
- Wynyard Hospital has been cancelled
- TVU funding cut from £7m-£2m
- Tees Valley Bus Network project go ahead
- £35m PFI street-lightning scheme cancelled
- Playbuilder capital retained

The CSR impact on Stockton Council

- 7.1% cuts each year for 4 years
- £27m reduction by 2014 for Stockton
- £16m in efficiencies since 2008
- Managed £3.3m of in-year cuts
- 375 employees have left since Jan 2010 54 have been replaced mainly on a temporary basis
- EIT reviews have been accelerated and brought forward
- There is uncertainty of grants of around £10m

There have been a number of housing benefit and welfare reforms:

- The removal of 5 bedroom LHA max 4 bed payable (affects 30 Stockton families £36 pw)
- Removal of £15 excess payment to customers where LHA exceeds rent charged (affects 1,400 private tenant households)
- Have extended the shared room rate for LHA to all single claimants under 35 (affects 400 claimants loss of up to £36 pw total loss in Stockton c. £789k per year)
- Abolition of Housing Benefit to Universal Credit

Noted

The wider public sector impact on organisations was discussed:		
DWP		
 26% reduction over 4 years achieved through reductions in corporate functions/no redundancies planned 10/11 Retain local JCPs, possible expansion of service to include other department, such as HMRC Network review complete – DWP region covers NE, Yorks and Humber, DWP district will cover Durham and Tees Valley 		
NHS Foundation Trust - Health has received an average real increase of 1.3% - NHS nationally needs to find £15-£20bn of efficiency savings by 2014/15 - Savings expected to come from improving productivity, best practice and cutting administration - Equates to c £200m across Teesside - Trust estimates CIP target for 2011/12 of £16.5m	Noted	
Mental Health Trust - 4.5% of annual efficiency targets already planned for next 4 years – but impact of budget cuts in services that interact with a Trust concern		
Cleveland Police - Home Office subject to 15% cut - Working on 20% cut, frontloaded across 4 years – expect a report in Feb 2011 on headline savings - Police Authorities likely to go		
Cleveland Fire Brigade - Cuts backloaded over 4 years – average £2m+ each year		
Probation		
- Ministry of Justice facing around 23% cut		
- Probation Trusts still to be notified of share of cuts		

	1	
- Voluntary redundancies agreed		
It was noted that it had to be recognised that there was some positives in the Stockton economy, such as: - Stockton has been recognised as the most enterprising place in the North East - Highest set-up rates in the country - Tees Valley Unlimited – successful LEP bid, only one of 24 in the country approved - Opportunities to bid for £1.5bn Regional Growth Fund		
It was discussed that the money nationally for physical regeneration has been cut by half in the CSR, so there is a smaller pot nationally. The delivery of ambition in Stockton is more challenging, but this will not dampen ambition or resolve.		
There was a discussion around the Sustainable Community Strategy and its relevance in terms of the impact in changes in priorities. A core task for Stockton Renaissance will be to challenge how relevant the SCS is in this challenging landscape by working through the Area Partnerships and Thematic Partnerships.		
It was discussed that there is such uncertainty with grants, that it is very difficult to know which grants are at risk. It was noted that there is a potential impact on services. It was requested that the VCS are made aware and kept informed of what is happening. It was noted that there is a piece of work ongoing to look at where grants are and where there are commissioning opportunities so that services have a combined understanding of what the impact could be.		
5. UPDATE FROM BALANCE ON MINIMUM PRICING Minimum Pricing The Board were informed that they would be called to give a view as to whether a Minimum Brice Bor		Emma Champley (SBC) & Colin Shevills (Balance)
The Board were informed that they would be asked to give a view as to whether a Minimum Price Per Unit of Alcohol is a policy that the Partnership would support either locally or nationally. It was noted that policy debates are currently on-going regarding local and national approaches to addressing alcohol harm. The business plan of HM Treasury confirms that a review of "alcohol taxation to tackle problem drinking" will be complete by March 2011. Additionally, the Home Office, has recently	Noted	

reviewed licensing. A range of organisations have stated support for a minimum price, including the British Medical Association, the Royal College of Physicians and the National Institute for Health and Clinical Excellence.

It was noted that alcohol consumption has more then doubled in the last 40 years. In the North East, almost one third of men and a quarter of women admit to drinking over the Government's recommended limits. As consumption increases, so does alcohol-related harm:

- Alcohol-related hospital admissions have increased by 116% since 2002/3, with the North East having the highest rate in England
- 46% of all violent crime is alcohol-related
- The number of deaths from alcohol liver disease rose by almost a third between 2004 and 2008, with liver specialists reporting seeing younger people than ever before
- Alcohol-related issues cost the North East economy around £1.3bn a year in costs to the NHS, alcohol-related crime and disorder and impact on the economy

The Board were informed that in terms of consumption, Stockton is fairly typical of the North East as a whole. Almost 9 out of 10 drink alcohol, with most of it purchased from supermarkets and consumed at home. Some 22% of residents admit to drinking to get drunk and around a third have been in a risky situation because of alcohol, figures which are higher amongst the young. As in the rest of the region, Stockton's levels of alcohol related crime and disorder appears to be falling.

It was noted that the World Health Organisation in its new strategy recommends that a package of measures is required to address alcohol harm, including educating individuals and regulating availability. A key part of that package is affordability and price. It was anticipated that a minimum price of 50p per unit would:

- Reduce the number of deaths from alcohol-related causes by more than a quarter
- Reduce the number of crimes by 46,000
- Reduce hospital admissions by almost 100,000
- Save the country an estimated £1bn a year

The price of drinks in pubs and clubs would remain largely unaffected by the introduction of a minimum

Noted

price per unit set at 50p.		
It was discussed that consultation in the summer will take place with the Home Office looking at price and tax review from the Treasury.		
 The following discussion took place with the Board A community representative informed the Board that this item was discussed at the Central Area Partnership Board and the main problem is availability, with cornershops selling cheap alcohol with a high alcohol percentage. It was also suggested that this alcohol is being sold late at night or early in the morning. An alcohol strategy was developed a couple of years ago, however it needs refreshing to draw up a bi-law process to contribute to the whole strategy and the Board would support a sub regional approach to this. Look to address the issue of happy hours in pubs and buy one get one free in supermarkets Vast majority of alcohol is sold by global/international companies and is very cheap to produce so the minimum pricing would not really affect them It was noted that the health organisations need to be involved in this as drinkers often find other things to supplement alcohol if alcohol is beyond their price. There needs to be an integrated strategy and needs to be an investment in treatment services. It was noted that 50% of violent crime in the North East is linked to alcohol It was asked if it would be appropriate to being together retailers, pubs, off licenses to a meeting to see what suggestions they would have. Emma informed the Bard that a letter had been sent o the supermarkets across the borough to invite them to a meeting, however so few responded that individual meetings will be held with those that responded It was suggested that young people are used as a sounding board to get their thoughts and suggestions on the issues It was commented that alcohol should not be used to promote things, such as sporting events. 	Noted	
It was agreed that Stockton Renaissance support the national policy for minimum pricing and would support a bi-law.	It was requested that Colin & Emma	

Alcohol Harm Reduction National Support Team	attend a future	
Visit to Stockton	meeting to	
The Department of Health Alcohol Harm Reduction National Support Team visited Stockton in October	discuss bi-laws.	
2010. The Support Team reviewed information submitted to them prior to the visit to inform		
questioning during the visit. A wide range of information was submitted from Stockton covering young		
people and adults, relating to prevention, treatment and control. Approximately 30 people from		
Stockton were interviewed from statutory and non-statutory organisations. The Support Team is re-		
visiting the area on 20 December 2010 to assess/agree support requirements.		
The summary of the support team feedback to Stockton was presented to the Board:		
Use of the Cardiff Model		
Alcohol Strategy is well-embedded with strong systems for reporting on progress		
Clear commissioning cycle for the treatment system		
Well utilised Brief Intervention training programme		
Pilot alcohol work commencing in Holme House, including brief interventions and specialist post		
Innovative use of Social Networking sites to gather intelligence		
Joint commissioning between Independent Living and DAAT		
Well developed work on Hidden Harm	5	
Good engagement of North Tees & Hartlepool NHS Foundation Trust	Ruth Hill, as	
A&E referral system for young people	assistant	
 Positive use of Pubwatch and associated protocols, indicative of good working relationship with 	director of	
industry	public health to	
 Operation Exodus (Section 27 notices and confiscations of alcohol) delivered with signposting 	write formally	
to treatment	supporting this.	
Generic adult social work teams have designated alcohol leads		
Daily trawl of incident records to identify issues relating to license premises		
It was noted that there was a specific recommendation related to Stockton Renaissance and linked to		
the Safer Stockton Partnership in terms of Renaissance developing a longer term vision to inform the		
alcohol strategy post 2012. It was suggested that this should inform part of the Sustainable		

Community Strategy, with Renaissance identifying where alcohol fits within the Strategy.		
6. JOINT STRATEGIC NEEDS ASSESSMENT The Board were informed that the Joint Strategic Needs Assessment (JSNA) is a process that PCTs and local authorities have a duty to work on together to describe the health and wellbeing needs of the populations they serve. It has a key role to play in identifying the strategic direction and is the responsibility of the Health and Wellbeing Partnership which has representation from a wide range of local partners.	Noted	Ruth Hill (SBC/PCT)
It was noted that the main areas to focus on to help us address health inequalities over the next ten years or so include: - Making healthy lifestyle choices easier, including stopping smoking, promoting safe, sensible drinking and increasing physical activity - Helping people identify sooner if they are at risk of cardiovascular disease, cancer, and other illnesses so they can get the right care and treatment quickly to prevent them getting ill - Improving access to, and quality of, care and treatment for people if they do get ill - Supporting people in old age and with long-term health conditions to live independent, good quality lives The Board were informed that street level data is also available, which helps to target work.		
The Board were informed that the reference document has useful information and detail and provides the opportunity to influence commissioning priorities and decisions.		
The following was discussed by the Board: - Poverty in health – need to target marginalised people on how to deal with and deliver poverty in health. Go and engage with communities and ask them what their needs are and be committed to doing this and making a difference. - How people make the right choices is key		

 It is important to include the wider determinants of health in the discussions including poor housing and unemployment Suggested to look at different things in a different way to target the inequality gap. Need to target hard to reach and change the approach The Board were informed that feedback is welcomed on this document and the document is refreshed annually.
