

STOCKTON-ON-TEES BOROUGH COUNCIL

CABINET RECOMMENDATIONS

PROFORMA

Cabinet Meeting3rd December 2015

1. Title of Item/Report

Welfare Reform Update – Q2 2015-16

2. Record of the Decision

Consideration was given to a report that presented an update on monitoring of the outcomes / impact of Welfare Reform and a summary of actions undertaken to mitigate against circumstances arising from the implementation of the Welfare Reform Act.

Quarterly reports on Welfare Reform had been provided to Cabinet since 2013, providing information on a range of indicators which showed how welfare reforms were impacting on residents and service provision across the borough. These reports had also included detail on any updates the Council had received with regard to the further roll-out of welfare reform and interventions the Council was making to manage its impact on the residents.

As part of the existing monitoring arrangements, new or unexpected trends had emerged such as activity around benefit sanctions, the use of local food banks and shifts in the rented housing sector from social to private landlords.

Following feedback received on previous quarterly reports, at Q4 2014/15 there was a review of the large range of information previously provided to ensure that it was more focussed and easier to follow, yet continued to provide an accurate and robust summary of welfare reform issues. The report continued to use that more focussed range of information.

The Association of North East Councils (ANEC) had commissioned the Institute of Local Governance (ILG) to undertake a piece of work monitoring the impact of welfare reform across the region. The outcomes from that research work would be useful in understanding the local impact of welfare reform and whether it differed from the impact sub-regionally and across the wider region. As part of that research work, a basket of monitoring indicators had been developed which would be collected from all participating local authorities.

To support the ILG research work, the basket of monitoring indicators that they had developed had been entirely included within the monitoring framework attached to the report, with each of those measures clearly labelled.

RESOLVED that:-
