

CABINET ITEM COVERING SHEET PROFORMA

AGENDA ITEM

REPORT TO CABINET

14TH FEBRUARY 2019

**REPORT OF SENIOR
MANAGEMENT TEAM**

COUNCIL DECISION

Deputy Leader of the Council and Adult and Social Care & Health – Councillor Jim Beall

Joint Strategic Needs Assessment (JSNA) update

1. Summary

This briefing provides an update regarding the process of refreshing the JSNA.

2. Recommendations

Recommended to Council that the refreshed Joint Strategic Needs Assessment (JSNA) be approved.

3. Reasons for the Recommendation(s)/Decision(s)

Cabinet is asked to consider the Report, to support the refresh process to enable effective strategic planning and procurement around health and wellbeing issues.

4. Members' Interests

Members (including co-opted Members) should consider whether they have a personal interest in any item, as defined in **paragraphs 9 and 11** of the Council's code of conduct and, if so, declare the existence and nature of that interest in accordance with and/or taking account of **paragraphs 12 - 17** of the code.

Where a Member regards him/herself as having a personal interest, as described in **paragraph 16** of the code, in any business of the Council he/she must then, **in accordance with paragraph 18** of the code, consider whether that interest is one which a member of the public, with knowledge of the relevant facts, would reasonably regard as so significant that it is likely to prejudice the Member's judgement of the public interest and the business:-

- affects the members financial position or the financial position of a person or body described in **paragraph 17** of the code, or
- relates to the determining of any approval, consent, licence, permission or registration in relation to the member or any person or body described in **paragraph 17** of the code.

A Member with a personal interest, as described in **paragraph 18** of the code, may attend the meeting but must not take part in the consideration and voting upon the relevant item of business. However, a member with such an interest may make representations, answer questions or give evidence relating to that business before the business is considered or voted on, provided the public are also allowed to attend the meeting for the same purpose whether under a statutory right or otherwise (**paragraph 19** of the code)

Members may participate in any discussion and vote on a matter in which they have an interest, as described in **paragraph 18** of the code, where that interest relates to functions of the Council detailed in **paragraph 20** of the code.

Disclosable Pecuniary Interests

It is a criminal offence for a member to participate in any discussion or vote on a matter in which he/she has a disclosable pecuniary interest (and where an appropriate dispensation has not been granted) **paragraph 21** of the code.

Members are required to comply with any procedural rule adopted by the Council which requires a member to leave the meeting room whilst the meeting is discussing a matter in which that member has a disclosable pecuniary interest (**paragraph 22** of the code)

REPORT OF SENIOR
MANAGEMENT TEAM

COUNCIL DECISION

Joint Strategic Needs Assessment (JSNA) update

SUMMARY

Under the Health and Social Care Act (2012) the Health and Wellbeing Board has a statutory duty to produce a Joint Strategic Needs Assessment (JSNA) to underpin the Joint Health and Wellbeing Strategy and hence the work of the Board.

The Joint Health and Wellbeing Strategy sets the strategic direction of the health and wellbeing 'system'. As such, the JSNA is a tool to enable strategic planning and procurement. It aims to maximise best use of resources to improve population health and wellbeing and address health inequalities. The JSNA is therefore not a performance monitoring tool (though performance trends form part of the intelligence within it). Active use of the JSNA by all partners will help to align strategic planning and decision-making behind consistent priorities for health and wellbeing, so making best use of resources.

The JSNA is used by a range of organisations to:

- inform direction and shape of strategic priorities and defining key issues to be addressed;
- summarise levels of need (not just demand) within populations including future forecasting and highlighting needs of particular population groups to enable targeting;
- highlight robust evidence base;
- enable strategic planning and approach to key health and wellbeing issues; inform service design and procurement;
- help to summarise systems-level outcomes.

RECOMMENDATIONS

Recommended to Council that the refreshed Joint Strategic Needs Assessment (JSNA) be approved.

DETAIL

1. A summary of the current status of the Joint Strategic Needs Assessment (JSNA) is attached as **Appendix 1**.
2. The full JSNA can be viewed via the JSNA website: <http://www.teesjsna.org.uk/stockton>

COMMUNITY IMPACT IMPLICATIONS

Consideration of outcomes and impact on the community, particularly vulnerable communities, is inherent within the JSNA process.

FINANCIAL IMPLICATIONS

There are no direct financial implications. Any planning/commissioning implications will be taken through the appropriate groups for further work-up, discussion and decision.

LEGAL IMPLICATIONS

There are no specific legal implications of this Report.

RISK ASSESSMENT

There are no specific risks inherent in this Report. The report emphasises the importance of ensuring health and social care services are high quality, meet population need, are value for money and particularly support the most vulnerable.

Risk assessments around specific pieces of work will be undertaken as part of the more detailed work to develop initiatives and bring them forward for discussion / decision in the appropriate groups.

COUNCIL PLAN POLICY PRINCIPLES AND PRIORITIES

The JSNA supports all of the Council's policy principles through:

- Ensuring support according to level of need
- Understanding and aiming to meet the needs of the most vulnerable communities
- Working with communities to co-produce solutions and undertaking meaningful engagement to inform ways of working and service design
- Providing strategic coordination across a wide range of partners to improve health and wellbeing and help address health inequalities
- Working to prevent need arising and to address the root of issue rather than just the symptoms
- Empowering communities to take ownership of their health and wellbeing and to lead on developing solutions
- Helping to improve population health and wellbeing and create the conditions for a healthy population, to ensure local people can contribute actively to the economy and to society

CORPORATE PARENTING IMPLICATIONS

Current work to improve health and wellbeing provides targeted support to children and young people with the greatest level of need, as well as some more universal provision to help manage demand. For example, the new 0-19 service is stratified according to need and designed to work closely with parents, young people, other significant adults and the wider community and settings e.g. schools to maximise health and wellbeing for young people and help them achieve their potential. Public Health services also contribute significantly to the work to support children in care and to ensure robust safeguarding arrangements as well as being a key part of the developing Early Help arrangements and contributing to wider work with young people and families e.g. funding apprenticeships and supporting the work around SEND. Public Health also works to mitigate the impact of poverty on health and wellbeing wherever possible, together with partners and through the Health and Wellbeing Board. The JSNA supports all of this work.

CONSULTATION INCLUDING WARD/COUNCILLORS

Consultation, engagement and co-production with the local community and service users is integral to the JSNA process.

Name of Contact Officer: Katie Needham
Post Title: Interim Director of Public Health

Telephone No. 01642 527054

Email Address: katie.needham@stockton.gov.uk

Education related? No

Background Papers: None not referenced in the Report.

Ward(s) and Ward Councillors: Relevant to all wards

Property

No specific implications.
