REPORT TO CABINET

17 OCTOBER 2019

**REPORT OF CORPORATE
MANAGEMENT TEAM**

CABINET INFORMATION ITEM

Children and Young People – Lead Cabinet Member – Councillor Lisa Evans

SCHOOL PERFORMANCE – 2018 - 2019

SUMMARY

This report presents a summary of provisional, unvalidated headline performance data for the academic year 2018 – 19 in all Key Stages for all providers across the Borough.

Primary schools continue to perform well. 93% of schools are good or better (including previous judgements of schools not inspected since academy conversion). This is above average for the region and for England. This reflects the sustained impact of the work of the Education Improvement Service in monitoring, challenging, intervening and supporting the sector, including work with a significant proportion of academies who buy these services. Outcomes for pupils in the primary sector are above provisional national average for 2019 on every measure.

Secondary outcomes have improved overall from 2018 to 2019, are above 2018 national averages for all bar one measure (% achieving the English Baccalaureate). Once again all Stockton headline measures compare very favourably to those for other NE LAs. As in 2019 Stockton schools performance varies considerably between secondary schools.

Stockton post-16 providers have maintained an A level pass rate in line with the national average (98%) overall. The % of students achieving 3 A levels at AAB+ in facilitating subjects increased substantially for some providers though declined for others. Reflecting a national decrease, the % of students achieving A*-B grades at A level has declined and is below the national average. Progress scores will not be available until mid-academic year.

REASONS FOR PRODUCING THIS REPORT

The annual report on standards across the borough enables Cabinet to monitor standards and achievement and to evaluate the impact of local authority monitoring, challenge, intervention and support.

DETAIL

PRIMARY PHASE

1. Early Years and Foundation Stage
An increase in the Good Level of Development (GLD) of 3.3% from 2018 shows the continued impact of targeted training for schools and settings. 73.8% of children achieved this measure in 2019, compared with a national average of 71.8%. This is as a result of carefully targeted challenge and support, particularly on improving outcomes in communication, language and literacy. This focus will continue. There has also been a focus on raising the proportion of children 'exceeding' the expected level of development.

Over time, the average point score across the profile demonstrates a significant improvement. (**Appendix 1**)

2. Phonics

The proportion of Year 1 children meeting the standard in the phonics screening check has increased. Early indications are that the outcome will remain above the national average. (**Appendix 2**)

3. Key Stage 1

Comparisons with national outcomes show that the LA continues to exceed the national average in all subject areas, at both the expected standard and at greater depth. (**Appendix 3**)

4. Key Stage 2

In comparison with national averages, Stockton schools continue to perform well. Whilst there was a dip in reading, this mirrored the national picture. Nevertheless, there will be a continued focus on reading and on raising aspirations for the most able. (**Appendix 4**)

In comparison with other authorities in the North East, Stockton is 4% above the regional average for combined reading, writing and maths. Stockton is now joint first in the regional rankings on this measure. Stockton also ranks top in comparison with our statistical neighbours.

Progress measures continue to be strong for all subjects. (**Appendix 4a**). In comparison with the national average, progress made by pupils in Stockton schools is significantly above average.

SECONDARY PHASE

5. Key Stage 4

GCSEs are graded 9 (highest) to 1(lowest); a grade 4 is a standard pass (broadly equivalent to a C), grade 5 is a strong pass (B/C grade) and grade 7 broadly equivalent to an A.

6. Stockton students have improved further on last year's KS4 headline outcomes bar the % achieving L5+ in maths and % L5+ in English & maths. Once again Stockton is likely to be ranked highly across the North East for several measures in 2019 and is above 2018 national averages for all measures bar % achieving the English Baccalaureate. The % of grade 9s has further improved for English Language and English literature and is above the national averages. (**Appendix 5a and 5b**)

7. Of the 12 NE LAs, currently available information shows that Stockton schools have once again performed very favourably. Stockton schools are ranked 1st for the % achieving level 4+ and also for level 5+ in both English and maths. In other measures Stockton is ranked 2nd (English Baccalaureate average point score and attainment 8). (**Appendix 6**)

8. Stockton secondary school outcomes are once again very mixed:

- Headline attainment continues to be strong, and with even further gains made in some cases, for students at All Saints, Conyers, Egglecliffe, The Grangefield and Our Lady & St Bede. All are expected to achieve positive progress 8 measures; some significantly so.
- The Grangefield Academy has exceeded last year's significantly positive outcomes and is also expected to surpass the 'well above average' 2018 progress 8 score which placed the school in the top 14% nationally.

- North Shore students achieved improved L4+ attainment and % achieving L5+ Maths increased by 10%.
- Outwood Bishopsgarth students improved at L4+ English and overall Attainment 8 for the second year though are still below national, whilst L4+ maths has declined; L5+ measures are similar to those achieved in 2017.
- Northfield school has maintained strong outcomes in English and made improvement in maths at L4+ and L5+.
- Ian Ramsey students achieved similar attainment scores to those in 2018.
- The first Y11 cohort at Ingleby Manor Free School have achieved strong English and Maths attainment.
- St. Michael's Catholic Academy students performed well at L4+ though this is not reflected at L5+.
- St Patrick's Catholic Academy, now part of The Nicholas Postgate Catholic Academy Trust, has seen a further decline in outcomes this year and significantly so on some measures.
- At Thornaby Academy there has been a further decline in attainment at L4+ maths, a slight improvement in L5+ English but an overall decline in L4+ and L5+ English & maths which are both well below national. The academy is still yet to be re-sponsored.
- The top grade 9 (equivalent to the top of an A*) was awarded nationally to 1.3% of pupils in English Language and 3.4% of pupils in Maths. A majority of Stockton schools exceeded one or both of these averages and by some margin.

Post-16

9. Stockton post-16 providers have maintained an overall A level pass rate of 98% which is above the national average. The % of students achieving 3 A levels at AAB+ in facilitating subjects increased substantially for some providers though declined for others. The % of students achieving A*-B grades at A level has declined and although reflecting a national decrease compared to 2018, this is below the national average. L3 Applied General (vocational) average grade increased to Distinction - which is above the 2018 national average. Progress scores will not be available until mid-academic year.
10. There has been sustained high attainment by Egglecliffe and Conyers sixth form students, with further increases in the average points and average grade per A level entry. Whilst still above the national average, there was a decrease in the % of students achieving overall A*-B grades for students in these schools. Progress data (from students' starting points) is not yet available. The % of Egglecliffe students achieving grade AAB+ in at least 2 facilitating subjects increased significantly to 23.7% which is well above the 2018 national average of 16.2%. Both schools achieved a further increase in the average points per Applied General A level reflected in average grades of Distinction + and Distinction - respectively.
11. Attainment measures for academic A levels at Stockton Sixth Form College have decreased in 2019 in comparison to 2018, particularly for % A*-B grades. Although a decrease from last year, Level 3 Applied General outcomes remain in line with the national average for 2018 with students attaining an average grade of Merit+. Progress data, reflecting students' starting points, is not yet available.
12. Stockton Riverside College students completing A levels in 2019 achieved a 98.7% pass rate; a significant improvement from 2018 and above the national pass rate. Strategies including all A level students sitting AS exams in Year 12 have contributed to improved A level retention of 98.4%. This together with improved AS outcomes, including a 10.5% increase in A-C grades to 59.5%, bodes well for further improvement in A Level achievement in 2020.

There has been a further increase in the percentage of those students completing the course and achieving 3 A levels at grades AAB+ (in at least 2 facilitating subjects), rising

from 10.1% in 2017 to 23.2% in 2019 (significantly above the national average of 16.2% in 2018). L3 Applied General outcomes have also shown an improvement to an average grade of Distinction. (**Appendix 7**)
