### 257 Matters Arising

#### First Time Entrants into the Youth Justice System

In April 2006 the Youth Justice Board introduced new performance measures around First Time Entrants into the Youth Justice System. A young person becomes a 'First Time Entrant' (FTE) when they enter the criminal justice system at any possible stage, whether that be a police reprimand or an order for a more serious offence.

Members were provided with an update on action taken to tackle the target. The figures for 2006/07 were provided showing a successful 6% reduction for the borough. Early results had indicated that despite many effective preventative projects, the North East region overall appeared to have one of the worst rates for reducing FTE's in the country. It has been cited that the main reason for this was the conflicting agenda of reducing entrants into the system and the OBTJ (Offender, Brought to Justice) Strategy. It was felt that the targets given to different organisations needed to complement each other. It was requested that the issues be brought to the attention of Judith Million (GONE).

AGREED that the update be noted and that Mike Batty raise the issue with Judith Million (GONE).

### Reduction of Crime

Members of the Partnership were congratulated by the Chairman for being within the top 10% for the PSI target to Reduce Crime further to the publication of Home Office figures. The Partnership had been identified as being a strong performer.

Mike Picknett had produced an action plan to deal with reducing secondary deliberate fires, the performance figure had increased by 17.3% in Stockton on Tees. Monitoring of callers reporting deliberate fires would be taking place.

Discussion was held on ways to reduce fly tipping which was proving a problem for the authority, ways of encouraging people to take their waste to the incinerator needed to be investigated further. Figures on fly tipping to be provided at the next meeting.
