

COUNCIL MEETING – 17TH OCTOBER 2012
ITEM 17 – MEMBERS' QUESTION TIME

The following question has been submitted by Councillor Lupton for response by the Cabinet Member for Adult Services & Health:-

“I understand that under the Health and Social Care Act 2012, the Department of Health will be transferring the responsibility for fluoridisation schemes to local authorities on the 1st April 2013.

Currently the DOH is consulting with the public and interested parties on what process local authorities should use for consultations on whether or not to fluoridate water. This process will be open until 27th November 2012.

Could you please inform Members what response the Council has made to this consultation request?”
