

COUNCIL MEETING – 17TH OCTOBER 2012
ITEM 17 – MEMBERS' QUESTION TIME

The following question has been submitted by Councillor Lupton for response by the Cabinet Member for Environment:-

“Following the horrendous conditions suffered by residents in several areas of the borough during the recent period of heavy rain and consequent flooding could you please inform members as to how the Council, its employees and associated agencies reacted to the emergency?”

Could you also outline what, if any, representation is to be made to the Environment Agency as regards to the introduction of works to mitigate the results of any future storms of this intensity?”
