

COUNCIL MEETING – 20TH JANUARY 2016
ITEM 6 – PUBLIC QUESTION TIME

The following question has been submitted by Kenneth Jones for response by the Cabinet Member for Children and Young People:-

“Considering the examples, references and data used and presented by Stockton Council at the initial planning meeting for Red Plains, it is clear you did not have the foresight, capability or sound judgement to predict the disturbingly high number of police call-outs that have occurred at the property since it opened. Had this number of call-outs been expected then what would the planning department have said about the change of use of Red Plains when it is so close to neighbouring houses - one inhabited by an old lady and the other by a family with two very young children?”
