

**COUNCIL MEETING – 20 NOVEMBER 2019**  
**ITEM 12 – MEMBERS’ QUESTION TIME**

**The following question has been submitted by Councillor Ray Godwin for response by the Cabinet Member for Environment and Transport:-**

“Can the Cabinet Member for Environment and Transport please tell us why a tens of million pound bypass into Ingleby Barwick is limited in the traffic it can take due to having 7.5T weight restrictions on every exit of the roundabout as it enters Ingleby Barwick. If Ingleby Barwick is now classed as a town and not a housing estate surely it must be expected to take its proportion of large goods traffic on its main artery roads especially when diversions are in place on the A19 and A66?”
