

**COUNCIL MEETING – 26 JANUARY 2022**  
**ITEM 6 – PUBLIC QUESTION TIME**

The following question has been submitted by Naqeeb Hussain for response by the Cabinet Member for Children and Young People:-

“Further to the decision to not support a new (additional) primary and/or secondary school at Wynyard, please could you clarify the threshold as to when the council shall deem it necessary additional facilities will be needed?”

Are you able to indicate an estimate year to start and complete these new facilities where demand will be needed?

The Wynyard Masterplan identifies 2.no additional primary and 1.no secondary school will be needed by Mid-2020. If you consider forward planning, construction will need to start by 2022/23 assuming 3 year design and construction programme.”
