

Progress Update – Carbon Management

No	Recommendation	Responsibility	Anticipated Completion Date/ Completion Date	Evidence of progress 04/10/10	Assessment of progress (Categories 1-4) 04/10/10	Evidence of progress 13/12/10	Assessment of progress (Categories 1-4) 13/12/10
2	The Committee recommends that a Carbon budget pilot scheme is introduced to explore the practicalities and potential benefits of introducing such a scheme on a Council wide basis and an evaluation report be produced after one full year's carbon budgeting, bringing forward recommendations on the feasibility of scheme across all Council's services.	Mike Chicken	Trial during 2010/11 to complement CRC Energy Efficiency Scheme baseline year data.	<p>Issues around continuous (monthly) reporting of meter readings still to be resolved with main driver being the CRC Energy Efficiency Commitment. At present anticipate reports of electricity AMR readings to become available October 2010.</p> <p>Gas AMR meters likely to become available under the new supply contract but unlikely to be in place until well into 2011/12 FY</p>	2 – On Track	<p>AMR reporting resolved with trial planned November.</p> <p>New gas supply contract negotiated through NEEPO will deliver gas AMRs but timescale still to be confirmed</p>	2-On Track
5	the Committee recommend that a report be compiled so that all schools were identified showing their level of commitment to the carbon reduction strategy.	Stephen Calvert	<p>CRC active from April 2011</p> <p>Carbon Management review ongoing</p>	<p>Initial paper prepared by Andy Bryson.</p> <p>Discussions of the practicalities ongoing.</p> <p>Real time energy monitoring to be used to raise further awareness.</p>	2 – On Track	CRC Energy Efficiency Scheme changes announced in CSR need to be taken into account as details become available.	2-On Track
6	The Committee recommend that options are developed to consider the relocation of the Energy Advice Centre to The Shambles, or a more prominent position, to increase public awareness. If the centre	Tara Connor	To be agreed	<p>Service transferred to Municipal Buildings reception area, including sale and distribution of "green" goods.</p> <p>Signposting is in place from TIC and staff there have had some basic training on energy advice.</p>	2 – On Track	Completed	1-Complete

Progress Update – Carbon Management

	can not be relocated then it should be clearly signposted from Stockton High Street to its current location. Also the role of contact centres in providing additional energy advice services be explored.						
7	The Committee recommend that an audit of all Stockton Schools is carried out to identify where mechanical ventilation and air conditioning is used and a plan to replace with natural ventilation be developed.	Ian Hodgson	From April 2010	Review required following cancellation of BSF. Requests for new installations of air conditioning are referred to Technical Services for review and alternative solutions determined where practicable.	3 - Slipped	Awaiting post BSF review	3-Slipped
9	The Committee recommend that an action plan be drawn up for the refurbishment of SBC buildings to improve the DEC rating as soon as possible.	Ian Hodgson	31-Mar-11	Upgrade of Kingsway is taking account of the need for energy efficiency. Voltage regulation at Municipal buildings and IT changes will provide improvement. Ongoing activity	2 – On Track	Ongoing Voltage Regulation at municipal Buildings installed 20 November. At least two high electricity demand schools to be identified to receive VR.	2-On Track
10	the Committee recommend the investigation of using SBC community centres as community education facilities to show energy saving and micro generating technologies.	Stephen Calvert	31-Mar-11	Opportunities identified for PV installations now part of Tees Valley wide initiative to secure best value renewable energy supply for all local authorities including financed PV.	2 – On Track	Procurement process to be initiated across Tees Valley local authorities.	2-On Track
