Hi All,

Please see attached community updates for month end November 2012 , apologies for the delay in getting these to you.

Please also remember that the Police, ASB, Community Safety, Enforcement and Tristar officers named on the table are the nominated officers for that area, and is the person to contact regarding crime, ASB, community safety or Tristar housing related issues you may be experiencing in this area, but did not necessarily personally carry out all of the work that was done in that area. Please remember that these stats are intended for personal and work-related use only and not intended for public viewing.

Want to report incidents of ASB ? Please ring the 24 hr dedicated ASB hotline number : 01642 607943

May I also take this opportunity to notify you all on our new Community Safety Mediation Service now up and running in Stockton Borough for all residents. If you would like to know more information please see the attached leaflet. I have also provided the referral form if anybody would like to refer into the service.

Many Thanks,

Heather
