

## **Regeneration and Transport Select Committee**

### **Review of Highway Network Management**

#### **Chair's Update to Executive Scrutiny Committee – 13 May 2008**

##### **Update on Progress (including issues/problems/successes)**

The Committee has considered the scope and project plan of the review of Highway Network Management.

The Committee considered that the inclusion of 'pavement parking' as one of the main issues of the review would make the scope of the review too large for the Committee to undertake at this time. The Committee therefore considered that 'pavement parking' should form the basis of a separate review following the current review.

At the first meeting of the Committee, Members received information from Richard Bradley (Care for Your Area Service Manager) Brian Buckley (Group Leader: Highway Network Management) and Mike Robinson (Head of Technical Services).

##### **Timescale for review**

The review is scheduled to report to Cabinet in November.

##### **Monitoring**

The Committee will be receiving the Action Plan for the implementation of recommendations from the Sustainable School Travel Strategy review.

In common with the other Select Committees, the Committee will also be receiving Progress Updates on outstanding recommendations from previous reviews.
