

Regeneration and Transport Select Committee
Update to Executive Scrutiny Committee – 3 February 2015

Update on Progress (including issues/problems/successes)

Review of Road and Footpath Investment Opportunities

The aim of the Committee is to consider:

- Where to target investment.
- What the additional resources can achieve.
- The level of investment required in future years.
- What else could be achieved?

The Committee took evidence on 8 December 2014 to determine the cost benefit analysis of the new repair techniques before reporting the findings and recommendations to Cabinet. Members then considered a draft report and recommendations at their meeting on 19 January 2015.

A tripartite meeting will be held on 9 February before the final report is agreed at an additional meeting on 16 February. This review will be presented to Cabinet in March 2015.

Review of the Maintenance of the Borough's Main Bridges

The full Regeneration and Transport Select Committee will undertake a review in February 2015 when their current review of Roads and Footpaths concludes. The tripartite will be shared with the conclusion of the above review and the first evidence gathering will take place at the additional meeting on 16 February. This will be for presentation to Cabinet in March 2015.
