

Appendix 1: Gap analysis

The table below summarises the potential gaps in the delivery plan where areas of work are not currently covered by strategies or plans, and / or an accountable group needs to be identified for the work.

	Potential gap	Responsible organisation / group
1	Early intervention strategy is to be developed	Children and Young People Health and Wellbeing Group
2	The Teeswide Weight Management Services Strategy and Development Plan is to be refreshed and a local obesity delivery action plan is being developed	Stockton Healthy Weight, Healthy Lives Partnership group
3	Tees Sexual Health Strategy needs to be refreshed and a Stockton action plan developed	Tees Sexual Health Strategy Group and Stockton Children and Young People Health and Wellbeing Group
4	Stockton Health Protection Plan needs to be developed to reflect the new commissioning and health protection arrangements	Stockton Public Health team in liaison with Public Health England
5	A plan is needed to ensure the mental health and wellbeing needs of children and young people are addressed	Children & Young People's Health & Wellbeing Group in liaison with groups responsible for adult mental health and wellbeing
6	A plan is needed to oversee public health input into mental health for all ages	Stockton Public Health team will lead and responsible groups need to be identified to oversee and implement the plans. The Children & Young People's Health & Wellbeing Group could oversee the plans for children and young people
7	Locality plans need to be developed to supplement the Tees-wide delivery plans for: NHS Health Check (CVD including Atrial Fibrillation and Type 2 diabetes); COPD; and Cancer	Stockton Public Health in liaison with Tees Valley Public Health Shared Service
8	Plans to be consolidated for local employers to take forward health improvement initiatives	Making Every Contact Count Project Group with support from Health and Wellbeing Board partners
9	Tees Valley Public Health Shared Service is developing a work programme in liaison with the CCG to provide specialist Public Health support to the CCG, including reducing variation in health care	Tees Valley Public Health Shared Service overseen by the Tees Valley Public Health Board, in liaison with the CCG

10	NHS England has Programme Boards to monitor population screening programmes, but no specific delivery plans for these programmes. It may or may not be deemed necessary to have delivery plans around screening arrangements in the new system	NHS England in partnership with Public Health England and Directors of Public Health
11	No specific plans are in place to address an increase in the number of adults with learning disabilities and those in contact with secondary mental health services in settled employment	Stockton Borough Council, TEWV Mental Health Trust
