

Electoral ward data, Stockton-on-Tees

The electoral wards in Stockton-on-Tees are ranked in highest to lowest order for each of the indicators below.

1. Proportion (%) of people unemployed, March 2013
2. Proportion (%) breastfeeding initiation, 2012/2013
3. Proportion (%) smoking, aged 16+, 2003-2005
4. Proportion (%) obesity, aged 16+, 2006-2008
5. Proportion (%) fruit & vegetables (5+ pieces per day), aged 16+, 2006-2008
6. Cancer incidence (per 100,000), all ages, 2006-2008

Electoral wards are classified in 5 groups based on the IMD 2010 rank from 'most deprived' (Q1) to 'most affluent' (Q5).

The quintiles are based on rank position of wards within Stockton rather than rank position in England.

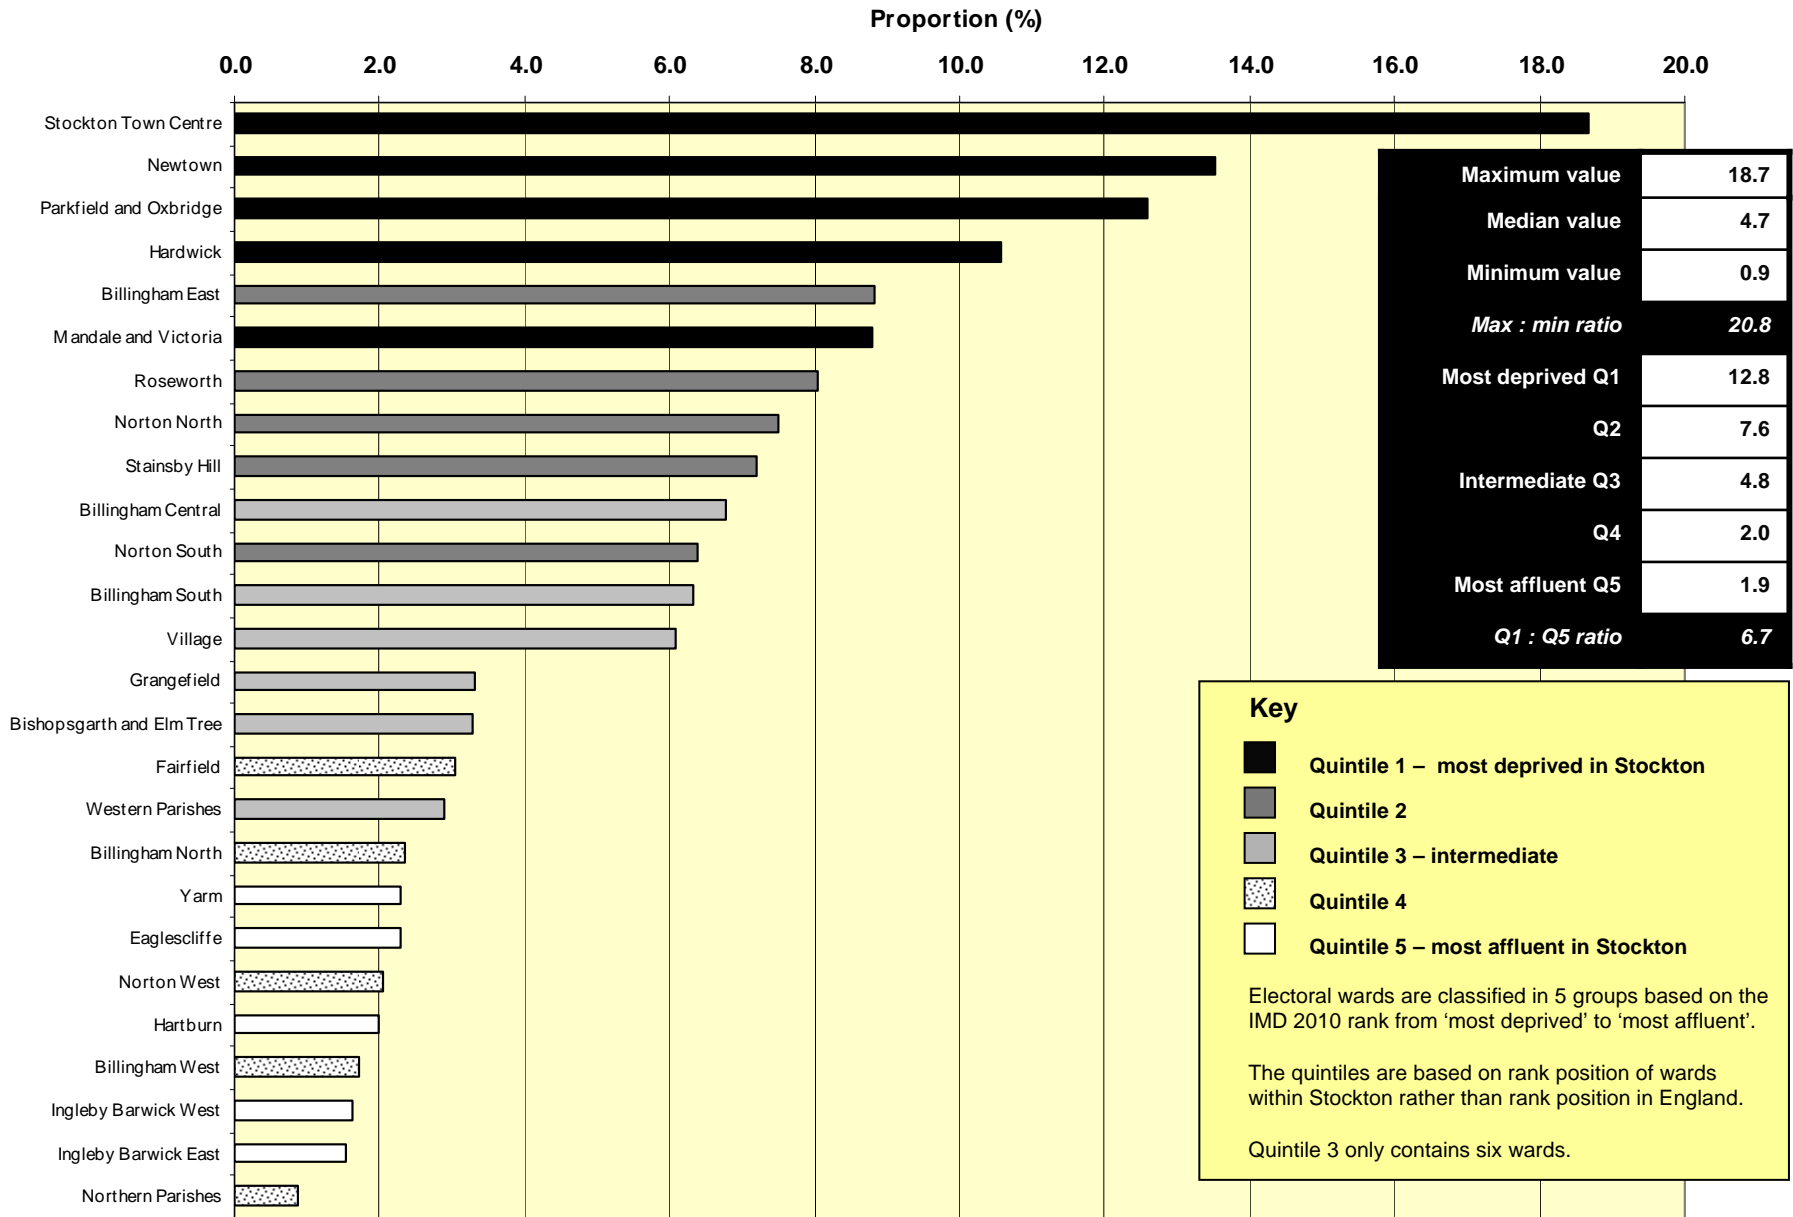

Quintile 3 only contains six wards.

For each indicator, the following measures are identified:

- Maximum value
- Median value
- Minimum values
- Maximum to minimum ratio
- Q1, Q2, Q3, Q4, and Q5 mean values
- Q1 to Q5 ratio

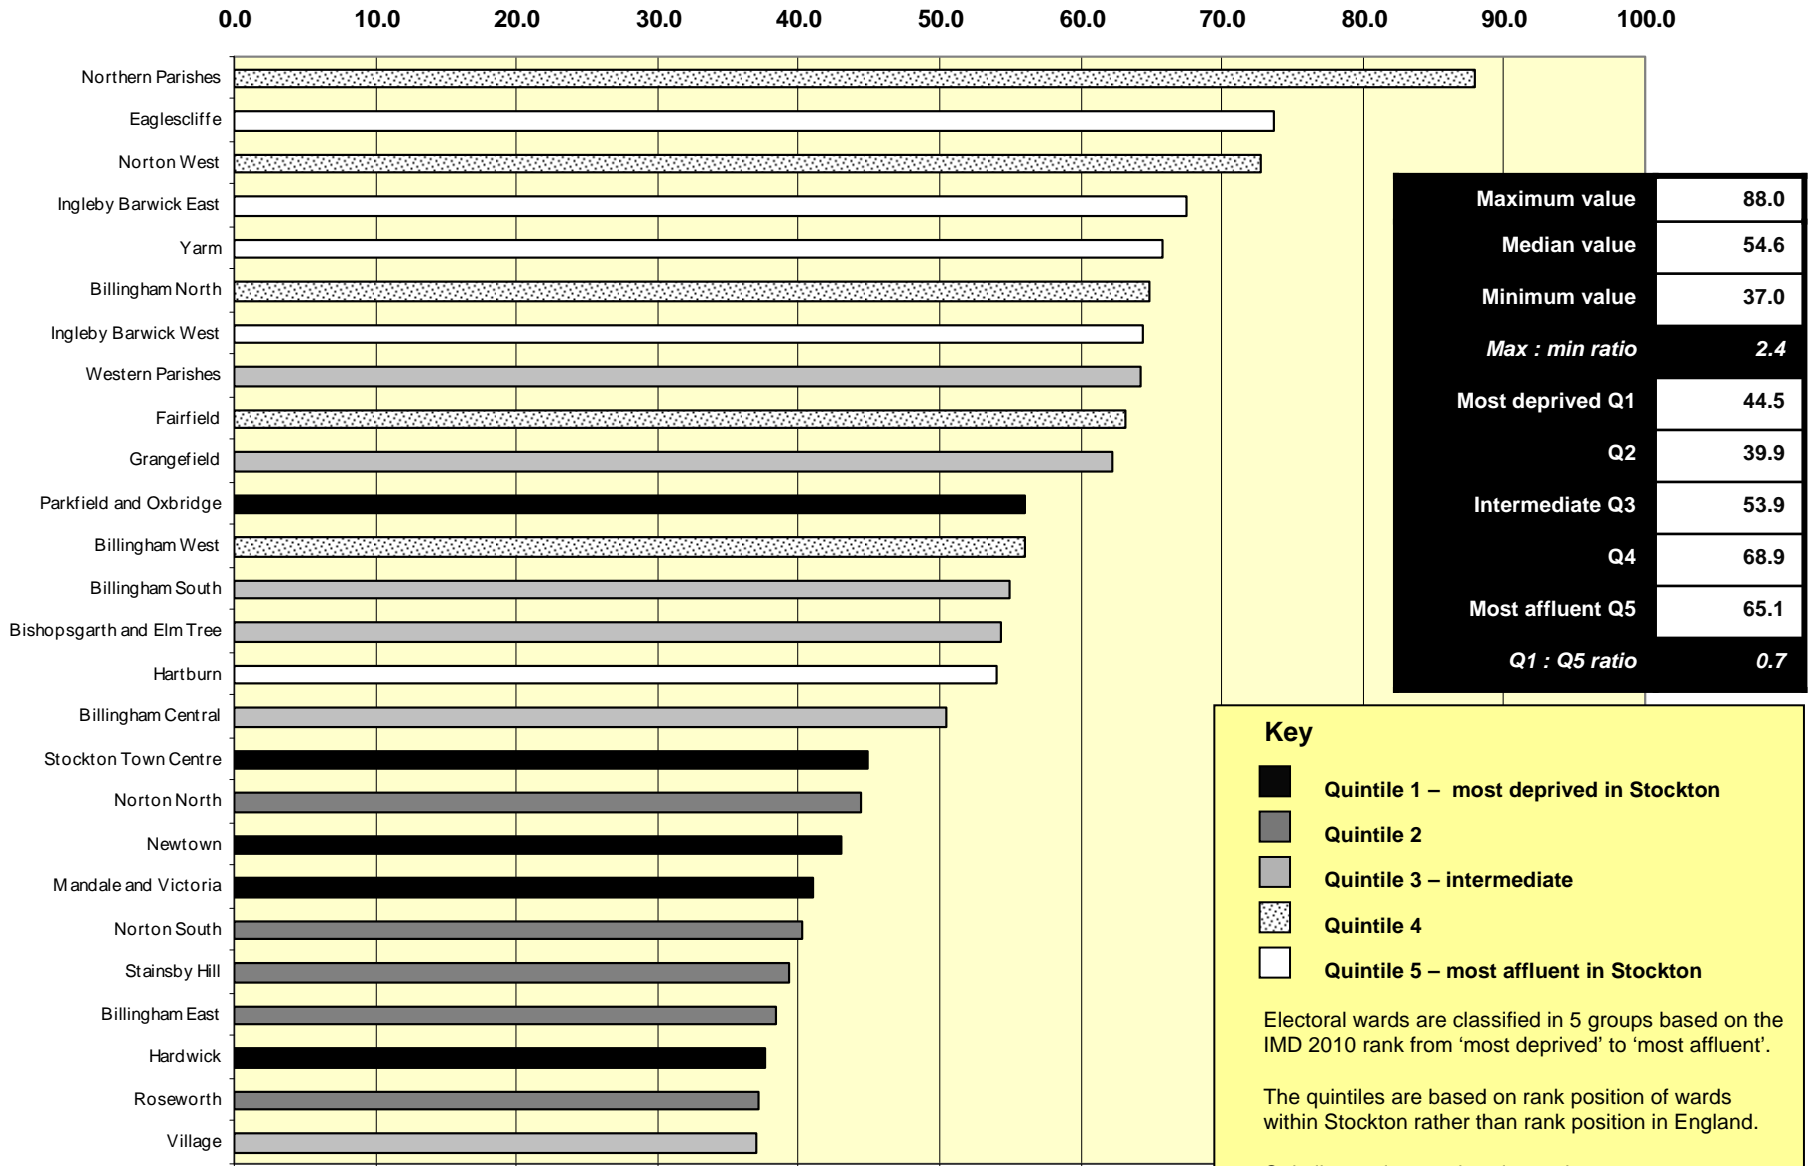

The data sheet is included in the last slide.

Proportion (%) of people unemployed, March 2013

Proportion (%) breastfeeding initiation, 2012/2013

Proportion (%)
