

## **Northern Burn Care Network – Service Configuration - Update**

### **Summary**

The Committee are asked to receive an update on the proposals for burns care across the North.

### **Detail**

1. On 11 June, an event was held in Wakefield for Health scrutiny Members from across the Northern region (including Isle of Man, and northern Wales), in order to update them with the proposals for new centres that would provide care for those the most serious and complex burns injuries. These centres have been termed 'supra-regional' and will be in addition to the regional centres that already exist. Stockton was represented at the event and the Committee will receive an update at the meeting.
2. Attached is a copy of the Executive Summary of the final proposals for 'Supra-Regional' Burn Care Centres. It is proposed that there should be two such centres for adult care, and one for paediatric care.
