

APPENDIX 4
Progress Update – Review of FASD

No.	Recommendation	Responsibility	Date	Evidence of progress Presented to Committee on Dec 2017	Assessment of progress Dec 17 Categories 1-4	Evidence of progress Presented to Committee on June 2018	Assessment of progress June 2018 Categories 1-4
2	The Council should build on previous work and undertake to raise awareness of FASD in Stockton utilising all relevant methods, including:						
	d) promoting and monitoring use of the FASD Animation	Aishah Waithe/Public Health Team	March 2017	As previous, due to a review and changes in workforce decisions are to be made on how to embed promotion of the animation and it's monitoring within the alcohol strategy. Discussions with Education improvement service to embed the animation within the toolkit are still yet to happen.	3 – Slipped due to change in workforce, this action will be subsumed within the Alcohol Strategy, to ensure it's included in the wider strategic approach to alcohol.	Slipped due to lack of capacity within the Public health team. We are in the process of recruiting to a post which will lead the development of this work	3
5	Committee supports participation in the Regional FASD Research Project, and Public Health should consider the results in due course	Public Health Team to liaise with those carrying out the study	March 2017	Public Health team are still currently awaiting the results of the study.	2 – on track	The Public Health Team has contributed to the funding of the research. An update on timelines for reporting from the study has been requested	2

APPENDIX 4
Progress Update – Review of FASD

No.	Recommendation	Responsibility	Date	Evidence of progress Presented to Committee on Dec 2017	Assessment of progress Dec 17 Categories 1-4	Evidence of progress Presented to Committee on June 2018	Assessment of progress June 2018 Categories 1-4
6	Ensure FASD prevention is reflected in the development of the revised Alcohol Strategy for Stockton-on-Tees	Aishah Waithe/Mandy MacKinnon	March 2017	The multi-agency partnership commenced the review of the Stockton-on-Tees Alcohol JSNA, this review will set the strategic direction of the strategy. Again, changes in personnel involved in the Alcohol Strategy group have slowed progress. Support will be sought from Adults Partnership to progress and address barriers identified.	3- Slipped	Alcohol consumption in pregnancy is recognised within the strategic issues set out in the (draft) alcohol JSNA The Public Health Team is in the process of recruitment to a post which will lead the development of this work	3

- 1 – Fully Achieved
- 2 – On Track
- 3 – Slipped
- 4 – Not Achieved
