

Agenda Item

Place Select Committee

27th January 2020

CONTAMINATED LAND (REPORTING-IN)

Summary

The Committee will receive a presentation in relation to the Council's draft *Contaminated Land Inspection Strategy 2019-2024* from Local Authority Officers.

Detail

1. The Place Select Committee work programme for 2019-2020 included a review of Contaminated Land. The current strategy was due for refresh in 2019, and since Officers had already made considerable progress in preparing for the review, it was therefore proposed that this piece of work is conducted by Officers as a 'reporting-in' review. Executive Scrutiny Committee approved this approach in October 2019.
2. Local Authority Officers will be in attendance to present an overview of the Council's draft *Contaminated Land Inspection Strategy 2019-2024*, a mandatory document which is held along with the Council's Land Contamination Register. The presentation will reflect on the following aspects of the Strategy:
 - Contaminant Linkages and Risk Assessment
 - Development of the Strategy
 - Priority Action and Timescales
 - Land Contamination outwith Part 2A of the Environmental Protection Act 1990
 - Management Procedures
 - Information Management
 - General Liaison and Communication Strategies
3. The Committee's views / comments will be reflected in the subsequent report that is considered by Cabinet.
