A huge thank you to [SEP Culant Ltd](#) for volunteering three employees to help on the planters project at Bunting Close.

Not only did the Middlesbrough based business give the time and skill of their employees, they hired extra equipment to make sure the job was done right!

It was such a tough job removing the bushes from the planter but with support like this we got there and can now move on to planting and bringing the planter back to life.

Working together making a difference.
