**Notes:**

1. The highway verge is in the ownership of Highways Department of Stockton On Tees Borough Council and it has been confirmed with W. David Carter of this department, that the works being carried out is in approval with them.
2. The average depth, nearest to the boundary fence is 230.00mm below ground level from the highway of Yarm Back Lane.
3. Once the appropriate level has been achieved in accordance with the requirements from the Highways department, the area will be seeded and restored back to its original state.
4. The materials being used to raise the ground level, comprises of Topsoil, rubble and clay soil and is brought from the rear garden area of the application site of Roseville House.
