

WORK OF NATIONAL OFFENDER MANAGEMENT SERVICE (NOMS)

1. When we agreed our programme of in depth discussion subjects at the start of the year, alternating with quarterly performance reports, the work of NOMS was the choice for this meeting.
2. When the Government first commenced its intention to merge the Probation Service and the Prison Service into a single service, a very ambitious programme was indicated, supported by an aspiration to put in place an integrated IT system across the two services.
3. In the event, neither the IT system nor the original timetable have been achieved. Lucia Saiger will give an update at the meeting on the current position.
