Dear Sir/Maam,

I have been supported by Stonham since summer 2006.

During this time I have witnessed the birth of my daughter in October '06

I was on heroin + methadone at this time Social Services were involved and Tia went into foster care. I stopped using heroin and started reducing my methadone

I stopped taking methadone in March '07 and Tia came home for good on 5/4/07

Sharon has supported me and my partner throughout this time and helped us maintain our tenancy

I feel I no longer require support as my life is pretty much sorted
yours sincerely

Richard Davlon
