

NATIONAL COMMUNITY SAFETY PLAN 2008/11

1. This document was published in December 2007, taking over from the National Community Safety Plan, which covered the period 2006/09, and sets out a Central Government view of priorities.
2. The 40 page Plan is structured around ten key objectives. In each case, the Plan sets out what the objective means for
 - a) the public
 - b) for partnerships (52 action points in total)
 - c) regionally and nationally (46 action points in total)
3. Attached as Appendix A (15 pages) is a schedule showing in each case the key section narration text and the action points for Partnerships, numbered 1 – 52, with space for a commentary describing the current position for our Partnership.
4. It is proposed to bring this report back to the March meeting, complete with commentary, in order to identify any gaps or areas for improvement.
