

APPROVAL OF COMMUNITY SAFETY PLAN 2008/11

1. The latest draft of the Community Safety Plan 2008/11 is attached for member's approval.
2. Since the meeting on January 29th a number of comments have been received from members and these have been included in the attached document.
3. Members will recall that in January we looked at the National Standards to ensure that our plan was compliant with both statutory requirements and best practice and the attached plan has incorporated both of these elements.
4. Where possible targets have been set however as the Local Area Agreement targets have still not been finalised we may need to tinker with some targets in the plan at a later date to ensure consistency.
5. Some targets are not finalised because we are waiting for final figures to set baselines from a three year average these will be added in the second week of April when this data becomes available.
6. The plan will be available in printed format in the last week of April and members will receive a copy at the 6th May meeting.
7. Members are asked to:
 - a) Consider the targets and agree that those in the LAA process may need some adjustment at a later date for consistency. All others to be endorsed.
 - b) Provide final comments to Claire Sills on 01642 527616 or Claire.sills@stockton.gov.uk on this draft no later than 29th March 2008.
 - c) Endorse the plan, and delegate approval of the final version to Chair and Vice-Chair.

Community Safety Manager
2nd March 2008
