

RENAISSANCE PRESENTATION

1. Attached is a presentation to be made to the Renaissance Main Board on the evening of 12 May. Renaissance is working through a programme of presentations on the work of each of the 'thematic partnerships'.
2. The main headline is the 30% reduction in recorded crime over the last 5 years (actually just over 29.5%). Other key points to note from this slightly different way of looking at the figures are
 - (a) 25 of 26 Wards have experienced reductions in crime, with half the Wards (13) enjoying reductions of 39% or more;
 - (b) the anomalous figure on Roseworth Ward appears to be due to a specific issue with shoplifting during 2008/09 which has now been resolved; and
 - (c) Stockton reporting rates for most crimes continue to run well above national averages (slide 7).
