

1 PDUs in effective treatment (rolling 12 month: 01/10/08-30/09/09)

Number has dropped for fourth successive month.
Deficit: 41

2 New treatment journeys engaged into effective treatment (01/10/08-30/09/09)

Journeys **284** % **90%**

3 Planned discharges (01/07/09-31/12/09)

Exits **104** % planned **36%**

4 Waiting times (first treatment intervention - current quarter)

% given first intervention within 3 weeks **98%**

5 DIP (Sept-Nov 09)

	Number	%
DIP referrals	26	-
Clients not in treatment since 2004	2	8%
Already in treatment at time of DIP referral	9	35%
Clients triaged following referral	13	50%
Of those triaged, clients started treatment	13	100%

6 CARAT to CJIT transfers (Sept-Nov 90)

	Number	%
Clients referred to CJIT from CARATs	13	-
Clients then picked up by CJIT	2	15%

These figures are being disputed. What DAAT believes to be the correct figures:
 - 16 clients eligible for referral
 - 8 (50%) already engaging
 - 4 currently being outreached

7 Other items to report

Crime

(% of clients admitting to committing the following crimes on a regular basis)

No clients reported being involved in drug dealing after being in treatment longer than 26 weeks

Apparent increase due to small numbers: only equates to 6 clients

Criminal activities clients reported being involved in after being in Stockton drug treatment services for increased periods of time

Other findings in report:
 - % injecting decreased over time
 - % sharing decreased over time
 - % employed increased over time
 - % reporting housing issues or decreased over time
