

### **Joint Strategic Needs Assessment (JSNA)**

1. Attached as Appendix A is the current draft of the 'front end' of the second JSNA for Stockton-on-Tees. In addition, a draft has been prepared of the supporting details and data tables, which currently runs to an additional 53 pages. Pages 52 and 53 are attached as Appendix B, and the full document is available on request (from Anne.Bowden@stockton.gov.uk tel. 01642 527075).
2. There is an opportunity at this stage to inform the final version of the next JSNA, but the timetable requires comments by 1 October (to ruth.hill@northteespct.nhs.uk), and a final version will be prepared by the end of October. This means that the results of our current consultation programme will come just too late to be incorporated in the next JSNA, but will be available for next year's version.
3. It is **RECOMMENDED** that members of the Partnership take the opportunity to provide any comments on the draft material.
