

**In-depth discussion:**

**Community Safety Plan 2011-2014  
Reduce Drug Related Offending**

**Suggested points for discussion:**

1. Does the partnership know the level of drug-related offending in relation to all offending in the Borough?
2. What is the partnership approach to enforcement on drug related illegal activity?
3. Does the Partnership have any queries relating to the move to Public Health of drug misuse : priority/budget setting, etc?
4. Is the Partnership fully aware of the impact that Police & Crime Commissioners may have on drug related issues and budgets?
5. Is the Partnership aware of the Drug Recovery Wing pilot within HMP Holme House?
6. Is the Partnership aware of the issues relating to a Payment by Results\* system relating to funding to address drug misuse? Payment by Results is currently proposed as:
  - Free from drug(s) of dependence
  - Offending (reduced)
  - Employment
  - Health & Wellbeing
    - Injecting
    - Housing
    - Vaccinations

**Information to aid discussion:**

The Partnership will be given a presentation on drug treatment by Emma Champley, Strategic Commissioner, Drugs, Prison Healthcare & Social Inclusion, and an update on enforcement activity by Rob Donaghy, Detective Chief Inspector.

The Partnership papers will include an update on this theme within the Community Safety Plan performance review.
