- **Reduce the perception that ASB is a serious problem.**
- **Reduce Anti Social Behaviour in the top five wards.**
 - **Stockton Town Centre;**
 - **Mandale & Victoria**
 - **Hardwick;**
 - **Parkfield & Oxbridge;**
 - **Newtown.**

Reduce repeat callers

Action

Reduce the perception that ASB is a serious problem

Action

- Participants felt that ASB applies to both younger and older people and doesn't just sit within one generation.
- All three groups identified; bad language, littering, graffiti, drug dealing, noise nuisance and verbal abuse as ASB and highlighted that ASB is intimidating and causes distress.
- Although all participants noted the Police to be the main reporting avenue, they expressed that they would not like to report ASB to the police due to the general feeling of wasting police time with the low level offences.
- All three groups highlighted the fact that young people 'don't have anything to do'; a lot of the fields that were once accessible to young people are now housing estates, so therefore young people tend to roam the streets and cause ASB.
- The adult groups both highlighted the idea of perceptions and how young people may not see something as ASB but an adult would.
- 6 participants either strongly agreed or agreed that the police and other local public services inc. council are successfully dealing with ASB in the local area, 7 either disagreed or strongly disagreed and 6 participants did not know.
- 10 participants thought ASB levels has increased in their area, 2 noted that it had decreased and 9 expressed that they thought it had stayed the same.
- Participants expressed main reasons for feeling safe in their neighbourhood are; Police/PCSO/LA patrols, neighbours looking out for each other, good youth engagement and supervision, no cold calling zones and parish council paying for NES officers.

Reduce Anti Social Behaviour in the top five wards Action

- **Stockton Town Centre**
 - High Street
- **Mandale & Victoria**
 - Mansfield Avenue
- **Hardwick;**
 - Tithe Barn Road
- **Parkfield & Oxbridge**
 - Yarm Road

 - Zetland Road

Problem Solving Plans

- SARA
- PAT
- POP

Performance

- **Reduce repeat callers to the Police, MAASBT and RSLs**
 - *Police* - Currently average 2 per day (5% of all reported ASB)
- **Reduce the perception that ASB is a serious problem**
 - No survey within this quarter. New Regional Resident Survey is in the process of being finalised to take place June 2012.

Performance

- Reduce Anti Social Behaviour in the top five wards

Ward	Police		MAASBT	
Stockton Town Centre	1937	- 4%	395	6%
Mandale & Victoria	1031	10%	104	- 32%
Hardwick	731	- 15%	97	24%
Parkfield & Victoria	733	- 15%	52	2%
Newtown	637	- 13%	70	17%

Recommendations

- Identify Street level hot spots
- Develop a geographical rather than thematic approach

Overall Performance

Anti-Social behaviour (Police data)

- Year to date 701 less incidents
- Year to date 5.6% reduction
