

Stockton-on-Tees Alcohol Action Plan

1st April 2012 - 31st March 2013

Introduction

The Stockton-on-Tees Alcohol Strategy was implemented in April 2010. The Strategy was a 3 year Strategy with a 2 year Action Plan within it. The 1 year plan for 2012-2013 has been developed to ensure that the strategic aims of the Stockton-on-Tees Alcohol Strategy are continuously achieved. This plan has the needs of young people threaded throughout it as opposed to a separate section (as was within previous plans). This plan covers responsibilities across both adults and children's services.

Performance Measurement

PERFORMANCE MEASURE	FREQUENCY
A reduction in the number of alcohol related admissions to hospital	Quarterly
Number of alcohol related A&E attendances due to assault	Quarterly
Number of adults accessing treatment that are new and repeat representations.	Quarterly
Number of young people accessing treatment that are new and repeat representations.	Quarterly
Proportion of clients completing alcohol treatment no longer requiring structured alcohol treatment.	Quarterly
Number of clients in employment, education or training at point of entry	Quarterly
Level of recurrent investment into treatment services.	Annually
Numbers of family members/carers accessing support services.	Quarterly
Number of staff given brief intervention training.	Quarterly
Number of adults on an ATR, number of breaches to an ATR, number of successful completions – no breach	Quarterly
Reduction in alcohol related Domestic Violence	Quarterly
Number of alcohol related arrests	Quarterly
Reduction in proportion of sales of alcohol to young people	Quarterly
Incidences of alcohol related ASB	Quarterly

Objectives

- Reducing alcohol related harm to young people, families and communities, through the delivery of sustained and consistent messages around alcohol consumption, in order to influence attitudinal change and create a cultural shift.
- Enabling frontline staff to identify early problematic alcohol use and make appropriate referrals.
- Targeting offenders of alcohol related crime, with a focus upon violent crime, anti-social behaviour and domestic violence.
- Reducing the availability of alcohol with a particular focus on sales to young people.
- Reducing the number of alcohol related hospital attendances and admissions.
- Delivering treatment services which are evidenced-based, cost effective, and are aligned with the National Treatment Agency models of care alcohol treatment framework, and are responsive to and accessible for all individuals who require treatment.
- Improving and developing integrated care pathways to ensure that individuals move through services effectively, and have access to training, education, employment and housing. Pathways will be inclusive of all vulnerable groups such as offenders, poly-drug use, young people and dual diagnosis.
- Co-ordinating and developing support services for young people, families and carers affected by someone else's alcohol related issues.

1. PREVENTION							
Issue	Action	Outcome	Measurement	Responsible Person	Financial Resources	Timescale Priority	RAG
