- Rape offences continued to show an increase, however, analysis of such crimes showed no patterns or evidence to suggest concerns with 'stranger' rape.
- Shoplifting had improved on the first six months of the year, demonstrating that operation shadow was working well.
- ASB incidents showed an increase of 8.3% along with a projection of 9% for end March 2014.

## **19 Hate Crime**

Members received a report relating to Hate Crime and a proposed approach in Stockton as a result of changes introduced to improve hate crime reporting across the Tees. Details of the proposed approach were noted:

As part of the refreshed SBC approach the Stockton Hate Crime group recommend **four** key reporting centres :

- Stockton Central Library
- Stockton District Advice and Information Service, Bath Lane
- Thornaby Central Library and Customer Service Centre
- Roseberry Billingham Library (Billingham Centre Library and Customer Service Centre, when it goes live)

The rationale was that they were central, were the centres that most Hate Crimes were reported and had private rooms for reporting 'Hate Crime'. All direct reporting centres would receive training on the correct procedures for reporting and recording hate crime.

In addition there would be an increase in the reach of awareness of Hate Crime by having 48 centres across the Borough (See Appendix 3 of the report) that had information on how and where to report incidents, ensuring links were made with the Safe Place in Tees Scheme. These sites and their related organisations would be offered a basic level of awareness raising /training and posters and publicity material, provided via the Tees Wide Hate Crime Group.

In addition to providing training for the **four** reporting centres there would be refresher

training for key staffing groups including the Anti-social Behaviour Team, Customer Services, Housing and Security Centre staff as these staff groups were those who would be more likely to deal with the victims of Hate Crime. This would allow for the inclusion of changes made to the protected characteristics under the Equality Act 2010 and would take into account any changes that had occurred in staffing.

The disability sub-headings that Tees Wide Hate Crime Group recommends would be used in reporting to ensure consistency across Tees.

There would be support for the Tees Wide 'Hate Crime' campaign which saw Police and partners:

- Working with key organisations to raise awareness of reporting hate crime e.g. Jomast
- Providing educational lessons on hate crime issues including those committed via social networks and the importance of internet safety when dealing with hate crime delivered over social media.
- Co-ordinating the reporting of hate crime incidents across Tees.

RESOLVED that the information be noted and the proposed approach to Hate Crime in Stockton as outlined in the report and above be noted.
