This was an improvement on last year and above average for both the region and England as a whole. This reflected the sustained impact of the work of the Education, Inclusion and Achievement Service in monitoring, challenging, intervening and supporting the sector.</p> <p>Although outcomes had not returned to pre-pandemic levels, outcomes for Stockton-on-Tees pupils in the primary sector were mostly above provisional national average for 2024 on every measure at age-related expectations. However, the proportion of pupils achieving the higher standards at the end of KS2 had fallen below the provisional national average.</p> <p>Secondary outcomes were above 2024 national averages in all areas. 		<p>Cabinet Meeting ..... 17 October 2024</p> <p>1. Title of Item/Report</p> <p>Peer Assurance Challenge of Adult Social Care by the LGA and CQC Assurance Update</p> <p>2. Record of the Decision</p> <p>Consideration was given to a report on the Peer Assurance Challenge of Adult Social Care by the LGA and CQC Assurance Update.</p> <p>Stockton-on-Tees Borough Council (the Council) commissioned an independent peer assurance challenge by the LGA to assess the ability of the adult social care service to deliver good care and support to people, as well as preparedness for a Care Quality Commission (CQC) assessment. On 23rd September, the Council received formal notification of the CQC onsite assessment, which would take place in the week commencing 25th November for 3-4 days.</p> <p>The LGA assurance peer challenge completed in July 2024, mirrored the CQC assurance methodology and, whilst it did not provide a rating as the Council would receive from CQC, it did provide feedback on strengths and areas for improvement.</p> <p>Overall, the LGA assurance peer challenge feedback was very positive and identified some strong practice, a supportive and committed workforce and effective leadership and partnership arrangements. It also identified scope for developing our emerging approaches for co-production, recording and record-keeping and to support evidencing of strengths-based working.</p>
