SHCDA would like to seek a public consultation regarding a tariff increase due to the ongoing rise in living expenses. To help the trade keep a certain standard of living, we are proposing to increase the fares by 50 pence. The National Living Wage will increase to £10.42 as of April 1, 2023. In a time when many are experiencing increased strain from a rising cost of living, the proposed fare increase today would support the wages and living standards of the trade.
