

SAFETY, HEALTH & ENVIRONMENT

INFORMATION IN THIS BOX RELATES ONLY TO SIGNIFICANT OR UNUSUAL RISKS.

- Buried Services - Potential for disturbing existing services that may be live and uncharted. Always use appropriate CAT scans before and during any excavation. Refer to drawing 285737-ARP-CP-XX-DR-CU-2700 for indicative locations.
- Live Traffic - Potential for conflicts with live traffic and pedestrians. Contractor to ensure work areas are appropriately safeguarded to prohibit access by the public.
- Invasive Species - Giant Hogweed has been identified within the scheme extents. Contractor to adopt best practice biosecurity protocols to prevent injury and unintentional transference both within the scheme and when moving off site.
- Soft Ground - Soft and compressible ground present at surface and shallow depth site wide. Risks to stability of stationary, moving and operational plant.
- Watercourses - Works immediately adjacent to, over and within the existing ditch. Structural elements to be designed such that they can be installed within minimal activity within the watercourse. Contractor to take necessary precautions to prevent injury through interaction with watercourse.
- Fly Tipping - There is general debris covering areas of the site which were previously densely vegetated. Specific items include two canisters - contents unknown - which have been discarded. Corrugated cement board - potential ACM - also present in SE corner of the site. Contractor to take the necessary precautions to remove and disposing of the items. Additional items may be present but not visible on the surface.

Legend

- Proposed new carriageway
- Proposed surface course installation
- Proposed footway / island
- Proposed shared footway / cycleway
- Proposed verge
- Proposed earthworks / landscaping feature
- Proposed standard parking bay
- Proposed disabled / accessible bay
- Proposed EV bay
- Proposed pick-up drop-off layby with rail replacement bus facility
- Proposed sign and post
- Proposed land drainage feature
- Proposed timber birdsmouth fence
- Proposed steel height restriction barrier
- Proposed steel welded mesh fence
- Proposed pedestrian steel access gate
- Proposed street lighting column location
- Scheme boundary
- Proposed site compound and material storage area

Notes

- All dimensions are in metres unless otherwise stated. Please do not scale by this drawing.
- All works to be in accordance with the Specification for Highway Works (MCHW) and the Tees Valley Design Guide & Specification 2021.
- This drawing is to be read in conjunction with all other scheme drawings and Specification Appendices.
- This drawing is for information only and should not be used for construction purposes. Refer to individual MCHW Series drawings and their associated Specification Appendices for further information.
- Setting out shall be carried out in accordance with the contract drawings and Appendix 1/12.
- The Contractor shall confirm the position of any Statutory Undertaker's plant and apparatus prior to commencing any excavation works. Apparatus should be clearly identified and marked. See Appendix 1/16.
- All topographical information shown is taken from ADH Site Surveys Limited topographical survey provided by SBC on 27/01/2022.
- For typical sections as shown on this plan refer to drawing 285737-ARP-CP-XX-DR-CH-0120.
- Street lighting, ANPR and CCTV camera and column locations are as per Stainton Lighting design. Refer to appropriate drawing series for detail and for ductwork and power connection information.
