

Existing path to change material to hoggan to align with the proposed path and increase accessibility and connectivity.

Pathway, starting from the back entrance of the museum café, aligning with the existing path going towards the Walked garden to increase connectivity.

Existing wall.

Existing orchard trees to be removed. Refer to drawing number 21/12 for ext.

Actual alignment of the footpath can be established on site against existing location of orchard trees.

Existing hedges out back at the new building entrance.

Existing trees (over stem pruned to 3m).

The areas of existing tarmac surface that gets damaged needs to be made good.

Existing trees removed to open views.

The areas of existing grass that gets damaged needs to be reinstated to original condition.

The areas of existing tarmac surface that gets damaged needs to be made good.

Note: Existing speed bumps to be removed, surface to be made good once speed bumps are removed.

Existing tarmac surface.

Existing benches.

1 Museum Extension
1:1000

Walked garden

Proposed orchard garden

Existing woodland railway

Transition hedge required

Proposed indicative staff parking
Total parking spaces: 12

Proposed bin compound

Drop needs required

Substation

Proposed timber post and rail fence with gates, located near the staff car park, 1.1m high

Existing orchard garden

Proposed concrete block type 3

Proposed ornate fence with double gates, 1.2m high and 500 in wide

Entrance

Proposed benches along low level planting

Proposed concrete block type 2

Proposed concrete block type 4 for paving banding and edging

Existing obelisk stone

Low level planting with ornamental grasses

Woodland
