Chairman's Conclusion

A new Vice Chair and a blend of newly elected members of the Committee and existing members have shown a strong commitment to the work for which they have been given responsibility and the committee has functioned well. The members have studied agendas and asked searching questions of officers not only presenting reports but also requesting further investigation of issues and explanation by the Chair and supporting officers of the committee. From the information received and reviewed the committee has not identified any issues that are not already being managed effectively that required escalation.

While recognising the valuable contribution made by members we must also pay tribute to the officers of this Authority who despite reduced staffing, reorganisation and a harsh financial environment have worked diligently to ensure sound fiscal controls and compliance with relevant regulations often being subjected to extra pressures due to delays in the delivery of information from external institutions. Reorganisation of the Council's management structure is proving a seamless transition with officers in many cases taking on different and added responsibilities. All of this and the adjustment post Covid 19 to "normal" working and a return to the office environment must of course be monitored and a work / life balance must be maintained.

In conclusion I would add that our officers have worked both in the office and occasionally from home throughout the year in a challenging environment showing a commitment and dedication to the Borough's sound financial management under at times extreme pressure and for this effort we must record our gratitude as a committee and a Council.

The Audit and Governance Committee is established with comprehensive terms of reference. The Chair of the Audit and Governance Committee has prepared this annual report on the Committee's work for presentation to Cabinet and hopefully this shows that effective corporate and ethical governance is critical to an authority's performance and in demonstrating continuous improvement it is therefore, a fundamental element of the modernisation agenda. Probity, transparency and high standards are an inherent part of corporate/ethical governance.
