REPORT TO AUDIT & GOVERNANCE COMMITTEE 30 MAY 2024

REPORT OF DIRECTOR OF CORPORATE SERVICES

CORPORATE RISK REGISTER UPDATE REPORT AND INTERNAL AUDIT ACTIVITY REPORT

SUMMARY

The Committee is reminded that quarterly reports on the Corporate Risk Register are presented for the purpose of reviewing the key risks that have been identified as having the potential to deflect services from achieving their objectives over the next 12 months and beyond. They also set out the actions being taken to ensure that the risks, and possible adverse outcomes, are minimised.

As a reminder, risks are scored on a scale of one to five for both 'impact' and 'likelihood'.

To inform members of the progress of audit testing to date and present a forward plan of testing and the resources available to meet the plan to support the assessment of risk.

RECOMMENDATIONS

It is recommended that:-

1. The current risk position as identified in the attached update report is noted.
2. The results of audit activity is noted and agree that the work for the next quarter be prioritised using the audit risk assessment methodology as outlined in the Audit Charter.

DETAIL

1. Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes. To support this, audit work is aligned to the strategic risk register and activity is structured around the strategic risks of the organisation.
2. The overall summary shows a summary of audit results against each risk area. The audit assurance is an indicator of how well controls to manage risks are operating, however this is an indicator of internal controls and there may be

external factors that remain outside of the council's control which may need to be reflected in a higher risk score.

- Audit testing results breaks down work undertaken in the previous period to provide members with an update on where audit resources have been employed and the results of that work. This will highlight any concerns raised in the period. There have been 3 Red controls identified in the period. The first relates to the achievement of recycling targets, this has previously been reported as red, the second relates to the completion of the Public Rights of Way Improvement Plan, and the final control relates to management oversight of unregulated placements.

- The next section is a graph against key governance themes, this is for all testing undertaken not just in the period. With all areas showing as 75% or higher there are no issues to bring to members attention.

5. Planned work identifies the areas to be examined in the next period as required by the Public Sector Internal Audit Standards. Members are reminded that each control is risk assessed to determine the frequency of testing, audit work is planned and undertaken a rolling programme which prioritises controls with the highest risk rating in accordance with this methodology. I am required to report any concerns I may have that would impact on the independence of the audit service or the adequacy of resources, I can confirm that I have no concerns in either regard.

6. Quality Assurance and Improvement shows a balanced scorecard for the delivery of the audit service. The majority of indicators will be reported annually but the ones shown provide an update on progress against agreed work to date. The level of adequate resources is calculated after staff time is adjusted to allow for Annual Leave, Bank Holidays and a reasonable amount of Admin Time.
